

## Product Data Sheet

# TVRmobile 1.0

TruVision™ TVRmobile 1.0 application

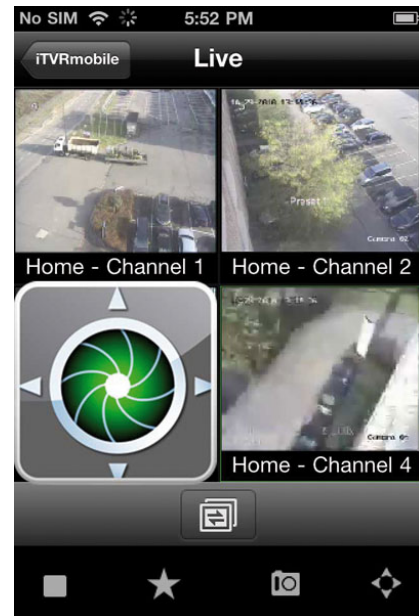

### Overview

TVRmobile is TruVision's™ mobile application for Windows®, Apple® and Android™ smart phones.

The application provides an easy-to-use tool for diverse smart phones that allows users to perform live viewing, PTZ control and efficient navigation through its TruVision video surveillance solution.

### Product Availability

TVRmobile™ is a license-free software application, available for download through the iTunes store for iPhone, Android Market Web site for Android phones and the UTC Fire & Security video upgrades pages for Windows phones.

### Kenmerken

- Up to 16 devices can be added to the application
- Up to 4 cameras can be viewed simultaneously (with Android only 1)
- Control & configure PTZ control cameras
- Remote connection via WIFI, 2G or 3G network
- Allows for QCIF & CIF image resolution viewing
- Manage Favorites; define specific cameras or devices as favorites to quickly connect them
- Application recognizes landscape and portrait orientation of mobile devices and adjusts accordingly
- Supported recorders: TVR10, DVSRxU, TVR40, TVR60 (analogue cameras only)
- Supported IP cameras (direct IP connectivity) TruVision™ TVD-M & TVC-M series
- Devices to be connected require a H.264 encoder as well as dual stream support
